Whether it's your "Fourth of July" or "Independence Day," it's a time to enjoy the company of family and friends, and to remember the many men and women who have fought and died for our country. For those who celebrate this holiday, there are a few good things you can do to make the day a little better. Of course, it's also important to celebrate without using your phone too much, and we've got some tips to help you do that, including preventing your kids from getting too "connected" on social media. The 4th of July is a time to relax and have fun, but we all know that teenagers can sometimes take it too far. The reality is that teens make bad choices all the time, but those choices are more extreme when the kids are getting connected to their friends. This leads to some pretty bad behavior on social media, which can include inappropriate pictures, comments, and everything else in between.
